

# Surrey Memorial Hospital

ERAS Collaborative  
Interdisciplinary Team Update  
Learning Session 2  
April 1 2015

# Success

- A key success has been the building of a strong, collaborative team that includes front line staff, leadership, a CNS and physicians.
- Implementing Pre-Printed Orders
- Patient booklet
  - supply & access
- Working on processes
  - ‘My Daily Goals’

# Highlights

- How challenging it is to bring about substantial change.
  - The team realizes that everyone is accountable and there is a need ‘to keep an eye on the ball’.
- Education & information sharing
  - Need to build into daily processes, and to support engagement
